YOUR UNIVERSITY.

Some students know what they want to do from a very young age, and some students don't. At the University of Prince Edward Island, we can help you discover your place in the world.

At UPEI, our award-winning professors know you by name. Our programs provide an excellent academic foundation in a wide range of subject areas. Our facilities are state-of-the-art. And by getting involved — in everything from student politics to international travel to meaningful research in a real-world setting — you'll become part of a tightly knit community that takes great pride in helping you succeed!

Coming our way? Book a tour! *Stay a night in residence. Eat in the cafeteria. Work out at the Fitness Centre. Talk to a professor. Our academic advisement team is ready to meet you anytime. Call us at 1-800-606-UPEI.*

I WAS THE KID who couldn't wait to go away to university — I wanted to travel and experience life out in the world.

I was accepted for scholarships at four universities, but when I received the Harrison McCain Scholarship at UPEI, everything fell into place.

If you're thinking university is just a step up from high school, don't. The work is different. You meet new friends. The faculty are incredible. And if I do a study-abroad opportunity next year, I'll still get to follow my dreams and travel. I'm doing everything I wanted to — right here, at UPEI.

— JACKIE SKINNER (2nd-year Business) is a graduate of Bluefield High School in Prince Edward Island and is a co-founder of the clothing design company, *Sunsets on the Eastside*.

YOUR ISLAND.

"GROWING UP ON ONE'S GOOD TRAINING
FOR LIVING IN A COUNTRY, ON A PLANET."

— MILTON ACORN

Prince Edward Island (PEI), Canada's smallest province at 224 km (140 miles) long, 6–64 km (4–40 miles) wide, and with a population of 139,000, is located in the Gulf of St. Lawrence on Canada's east coast. "The Island," with its beautiful beaches, family farms, fishing villages, and dynamic cultural scene, is a favourite tourist destination.

Charlottetown, population 32,000, is PEI's capital city and Canada's birthplace. Historic streetscapes, parks and buildings; and shops, restaurants, pubs, theatres, and art galleries provide a beautiful and welcoming setting for PEI's only university.

{upei.ca}

6 STEPS TO

I JUST LIKE to be out and about on campus. I love the Student Centre for meeting up and talking with people, and although I'm not there every day, it's a fun place to spend a couple of hours. I got involved on campus as the Sports Editor of the *Panther Post*, I was Residence Representative on Student Union this past year, and am an Arts Rep and an RLA for the coming school year. I'm glad I have three more years here!

— KATE VANGERVEN (2nd-year Arts)
from Grand Valley, Ontario, invites
you to take her video tour of campus
at upei.ca/katestour.

A GREAT START

☐ CAMPUS TOURS

To arrange a personal or group tour, call 1.800.606.UPEI or visit upei.ca/tours to make an appointment.

☐ SCHOLARSHIPS, AWARDS, AND BURSARIES

Apply by March 1 for Entrance Scholarships. upei.ca/scholarships

☐ SIGN UP FOR JUMPSTART

Get a jumpstart on university life at moodle.upei.ca.

☐ FIRST-YEAR ADVISEMENT

Meet with an advisor, choose your courses, and be eligible for priority registration. upei.ca/fyac

KATE VANGERVEN »

☐ NEW STUDENT ORIENTATION (NSO)

Be sure to sign up for this fun and informative week-long intro to university. Visit upei.ca/nso.

☐ CAMPUS HOTSPOTS

Once you're here, take a tour of the Robertson Library or chat live with "Library ASK US" at upei.ca/library, use the Webster Centre for Teaching and Learning for study help, work out at the Fitness Centre, shop at the UPEI Bookstore, cheer on the UPEI Panthers, catch a band at the Wave, run for Student Union, or work on the Panther Post — to name just a few!

{ live chat at upei.ca /student-services }

THE RESIDENCE EXPERIENCE

Make friends for life!

Living in residence means getting involved, making new friends, and having lots of fun. It also means getting help when you need it, participating in exciting residence events, and making the most of your time at university. You won't have to buy furniture, hunt down your landlords, commute in bad weather, or worry about gas prices. Focus on school and let us take care of the details!

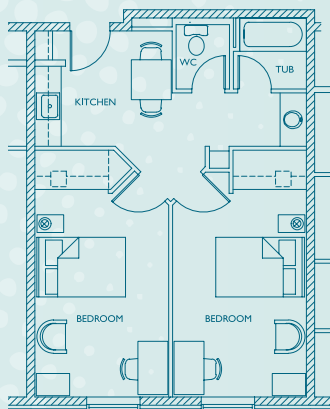

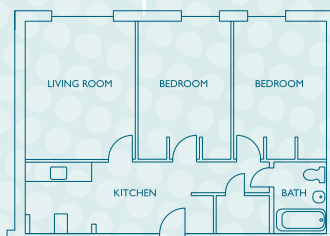

It's a well-known fact that students who spend at least their first year in residence are more likely to continue on to graduate — making residence life an even better choice.

- Why I need to live in rez...
- close to class, the library & gym
 - All-in-one meal plans, unlimited access til 10 P.M. (healthy food!)
 - No extra bills (except long distance)
 - Residence Life Advisors
 - free tutoring for first-years
 - time management and study workshops
 - 24-hour security
 - Academic Advisor
 - Live Chat: upe.ca/residence

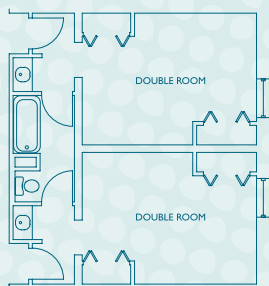

» BLANCHARD HALL

» ANDREW HALL

- 2-bedroom floorplan
- Take the 3D tour at upei.ca/residence

BERNARDINE » HALL

LIFE HERE IN RESIDENCE has given me some of my best memories from first year. I met tons of new people and some of the best friends I have ever had. I recommend choosing residence for at least one year of your university career. It makes the transition into life away from home a smooth one and gives you countless opportunities to get involved — something that off-campus housing doesn't provide.

Good friends. Good food. Good times. Life in residence is a GREAT experience!

— DENISE DAVISON, *Residence Life Advisor and Nursing student*

{ upei.ca/residence }

ATHLETICS

It's easy to stay healthy and active at UPEI when you have access to such great facilities! With the addition of the artificial turf field and UPEI Alumni Canada Games Place — host site of the 2009 Canada Games — UPEI has some of the best sports facilities in Atlantic Canada.

UPEI has a record 46 Academic All-Canadian athletes playing in nine Panther sports: men's and women's basketball, men's and women's soccer, women's rugby, men's and women's hockey, women's field hockey, and swimming. Along with PRIDE, our Panther mascot, our athletes are PROUD of their home turf!

PRIDE, THE PANTHER »

How I can get in shape...

- Book free fitness assessment
- ✓ Weights, treadmills & spin classes
at the Fitness Centre
- Aerobics & intramurals at the gym
- Play squash ☆
- Go for a walk (run!) on the track
- Swimming (2 pools) ≈
- Skating (2 rinks)

PLAYING ON A VARSITY SPORTS TEAM at UPEI has taught me to work on managing my time — both in the classroom and on the hardwood. As a student-athlete, I believe it's important to create a healthy agenda that allows me to maintain a solid GPA while performing at a high level of intensity in the sport that I love.

Playing basketball at UPEI has challenged me day in and day out, but it has been a blast. Education mixed with a sport I really care about — what more could I ask for?

— **NICK TOEWS** (4th-year Economics) plays point guard and shooting guard for the UPEI Men's Basketball Panthers.

{ upei.ca }
/athletics

FACULTY OF ARTS

***A Bachelor of Arts** offers a multitude of opportunities from a wide range of disciplines. It equips you with all the tools you need to excel in today's knowledge-based job market — analytical and communication skills, critical-thinking capabilities, research expertise, and a wealth of creativity — all of which provide an excellent foundation for making a meaningful contribution in the world.*

Innovative, collaborative, and student-centred, Arts is home to three 3M Teaching Award-winners, a Canada Research Chair in Island Studies, and programming from English to Modern Languages, from Psychology to Political Studies — and so much more!

The Faculty of Arts provides an abundance of diverse opportunities for students above and beyond the classroom itself. For example, students are regularly engaged in active research in Psychology's behavioural neuroscience laboratory looking at the link between neonatal toxin exposure, and epilepsy and schizophrenia. The Institute of Island Studies, the Centre for Christianity & Culture, and the AIRS project on singing research are but a few of the many exciting areas where students can get direct research experience.

UPEI also maintains a number of agreements with overseas universities which allow for student travel and study in Spain, Malta, Australia, the Caribbean, Egypt, South Africa, Japan, and many more international locations.

I'd describe myself as...

expressive, intuitive, open, idealistic,
 responsible, helpful, co-operative,
 insightful, unconventional

Some possible career options...

journalism, broadcasting, writing,
 art therapy, ethics, international
 development, immigration, public
 relations, social services, corrections,
 fundraising, urban planning, law,
 architecture, medicine, music

IN AN UNDERGRADUATE DEGREE, perhaps the most important thing is the quality of the professors. They become mentors who shape us at this most important time of life. UPEI is lucky to have some world-class teachers, and the arts and humanities training that I received has taught me how to write, how to argue, and how to realize when I was wrong. My professors helped make me who I am, and prepared me for the next step in my career.

— **KEITH BAGLOLE** (BA 2008) *did a major in Music and a minor in Chemistry, and is in the undergraduate program in Medicine at Dalhousie University.*

 /arts

SCHOOL OF BUSINESS

In today's economic climate, employers look for employees who are flexible and knowledgeable. At the School of Business, we ensure a well-rounded education by introducing you to such concepts as marketing, human resource management, finance, accounting, and operations management. You can specialize in these or other areas such as biotechnology management, entrepreneurship, and international business.

With consistently high rankings in the Canadian Accounting Uniform Final Exams, several firsts in national competitions, and prestigious student awards, we are prepared to help you succeed. Our dedicated faculty and staff maintain strong ties with the business community, ensuring that you are learning relevant concepts and practices for a competitive global market.

Build your resumé while pursuing your studies through our Co-operative Education program. You'll gain work experience and professional skills such as business knowledge, self-confidence, and independence, plus a salary to help finance your education.

Our international agreements provide you with academic and work exchanges all over the world — which are great opportunities for students to experience international business and new cultures, and to meet new people.

Research plays a significant role in areas such as human resource management, entrepreneurship, finance, marketing, biotechnology management, and tourism, allowing you to have direct access to business leaders and opportunities to gain real-world knowledge.

I'd describe* myself as...

✓ Ambitious, competitive,
adventuresome, energetic,
optimistic, organized, accurate,
efficient, practical, sociable

Some possible career options...

marketing, advertising, sales,
management, law, accounting,
bookkeeping, investments/finance,
owning a business

OVER THE PAST THREE YEARS, UPEI has given me the opportunity and support to travel to over 21 countries. Recently I returned home from a year of studying International Business in Paris, France. To me, UPEI is not just a university, it is a family. And the world has become my classroom.

— **BILLY MACDONALD** (4th-year Business), pictured here in the Swiss Alps, is specializing in Accounting.

{ upei.ca }
/business

FACULTY OF EDUCATION

***Teaching educators** to be global in their thinking is what UPEI's Faculty of Education is all about. Through specializations in International, Indigenous, and French Education, our two-year BEd promotes creative and effective teaching and learning using the latest technology. Our degree and certificate programs promote environmental responsibility and sustainability, and foster inclusiveness, co-operation, and collaboration — invaluable skills in today's educational settings. Faculty are caring and supportive, committed to making positive change in the world through education.*

The program accepts 85 students a year based on a combination of good grades and practical experience working with students.

With practicum choices in places as diverse as the Caribbean or New Zealand, Northern Canada or the Maritimes, UPEI teacher-interns become critical and creative learners who value diversity and worldmindedness.

A Certificate in Adult Education and a four-year BEd in Human Resource Development in collaboration with Holland College are designed for those wishing to teach in adult education settings. At the graduate level, our thesis or course-based MEd focuses on Leadership in Learning, and is delivered not only on campus but at other locations across Canada, including Fort McMurray and Nunavut. A PhD in Educational Studies will be offered starting in September 2010.

I'd describe myself as...
 ◻ caring, helpful, co-operative,
 responsible, idealistic, creative,
 thoughtful, self-motivated,
 introspective, problem-focused

Some possible career options...
 teaching, counselling/guidance,
 curriculum development, educational
 testing, motivational speaking,
 recruitment, literacy training, event
 planning, community outreach

UPEI'S SPECIALIZATION IN INTERNATIONAL EDUCATION has been one of the best experiences of my life. It is an amazing opportunity for pre-service teachers to spend their final practicum teaching in foreign countries. I travelled to Kenya and loved every minute of it. UPEI was incredible: the faculty helped us prepare for our journey, offering classes and seminars on culture shock, international education systems, and how to be an ambassador for Canada and UPEI. I am grateful to have had this opportunity, and for all the friends I made in Africa. My perspectives on education and the world have been expanded significantly.

— LISA MACLEOD (BEd 2009), who now teaches in Northern Quebec, took seven OLPCs (One Laptop Per Child) with her to Kenya.

 { /education }

SCHOOL OF NURSING

***Our School of Nursing** has a well-deserved reputation for providing a great combination of science-based education and challenging and diverse clinical experiences, all designed to nurture compassionate and caring health-care professionals.*

Grounded in the principles of primary health care, the School focuses on health promotion and disease prevention and caring for patients who are ill.

Nursing at UPEI is highly competitive, accepting 60 students each year. An Accelerated Program, intended for applicants with a university degree who wish to become a professional nurse, accepts an additional 14 students per year. Because classes are small, you get to know the faculty — and they get to know you! — making for a supportive, spirited, creative learning environment.

Nursing opens doors to many careers in the health-care system — in traditional hospitals and nursing-care settings, as well as public policy, research, and program development. And if you're interested in travel and nursing, we offer clinical placements through international exchange programs.

I'd describe myself as...
thoughtful, self-motivated,
rational, caring, ♡ friendly,
☀ patient

Some possible career options...
registered nursing, radiography,
paramedic training, physical therapy,
health education, community
health, nutrition, health policy,
research, home health care

WHEN CHOOSING MY UNIVERSITY, I thought it important to research the community as well as the program. UPEI was my number one choice. It offers Nursing students personal growth by collaborating with both traditional and non-traditional professionals and organizations. With help from our professors and the community, UPEI prepares us for the health-care industry, allowing us to provide the utmost in care for our patients. The Nursing profession does not discriminate based on gender, and it supports diversity within the workplace. Being a male nurse is important for both patients and the health-care system.

— BRET NASBY (2nd-year Nursing) plays for the Men's Hockey Panthers.

{ upei.ca }
/nursing

FACULTY OF SCIENCE

If you liked science in high school, you'll LOVE science at UPEI! Whether your passion is biology, physics, psychology, family and nutritional sciences, engineering, environmental studies, computer science, mathematics, or chemistry, the Faculty of Science has a wealth of options to choose from. We offer a creative blend of programs that will develop your critical-thinking skills and provide you with hands-on learning opportunities.

Top-notch professors provide an excellent grounding in Science. The rest is up to you!

Our state-of-the-art labs, small classes, and friendly, approachable professors help create a collegial, student-centred environment, giving you the grounding to pursue innovative research, win national awards, and go on to become leaders in the scientific community.

Check out our new Video-Gaming Specialization in Computer Science or consider our applied degrees in Child and Family Studies or Radiography. Co-operative Education programs in Physics and Computer Science and our internship in Dietetics help you apply what you've learned in the classroom — and can also help you finance your education.

I'd describe myself as...

introspective, independent,
curious, problem-focused, critical

Some possible career options...

lab technician, research, pharmacy,
dentistry, medicine, medical
technology, speech therapy, video
gaming, software development,
health and social services,
pharmaceutical sales & marketing,
healthy living, actuary/statistics,
engineering, industrial design

I WANT TO LEARN what makes the difference between an average game and a great game so I, too, can make great games. The usability lab allows me to play around with lots of games without breaking the bank.

— CHARLES WADDELL (3rd-year Science) is taking Computer Science and specializing in video-game development.

{ upei.ca }
/science

FACULTY OF VETERINARY MEDICINE

Have you always wanted to be a veterinarian?

The Atlantic Veterinary College (AVC) at UPEI, one of five veterinary colleges in Canada, is the only institution in Atlantic Canada educating Doctors of Veterinary Medicine. AVC is renowned for its exceptional educational programs and student experiences. Admission to the four-year DVM program is competitive, offering 60 seats each year. Since an application to the DVM program is assessed on additional criteria besides grades, we encourage potential DVM applicants to consult the veterinary admissions section of UPEI's Academic Calendar for a complete description of DVM admission requirements.

If you are a high-school student interested in Veterinary Medicine, UPEI's Pre-Veterinary stream within the Faculty of Science allows you to meet the course requirements for admission to our Doctor of Veterinary Medicine (DVM) program.

The Pre-Vet stream is a structured selection of undergraduate courses from various disciplines within the Sciences. Pre-Vet students participate in a variety of activities such as information sessions and presentations by professors who teach at AVC. Students who enter the Pre-Veterinary stream are not guaranteed entry into the DVM program. However, you can declare a major within Science after two years, and complete that major within four.

Prepare yourself for the possibility of an exciting career that is global in reach and makes a difference in the lives of people and animals.

I'd describe myself as...
 AN ANIMAL PERSON, AMBITIOUS,
 self-confident, insightful,
 responsible, problem-focused

★
 Some possible career options...
 *private veterinary practice,
 teaching, research, practising
 preventative medicine or
 specialized care, working
 with government, industry,
 or non-profit organizations

I AM EXCITED to be in the Pre-Vet stream in the Faculty of Science at UPEI. I feel more focused now that I know what I want to do with my life, and the encouragement has been wonderful! I've developed something like a family with my classmates because we're all in the same boat, taking the same classes and struggling through the same tests and exams. Last year, a few of us started the first Pre-Vet Society — a great way for the students to interact, and plan tours and events.

If you love animals and you have a passion for a career with animals, I highly recommend going for it — the opportunities are endless!

— ERIN JEFFREY (2nd-year Pre-Vet) taught English in Korea and Mexico, and ran her own art gallery before deciding she wanted to become a vet.

{ upei.ca }
 /pre-vet

UPEI INTERNATIONAL

UPEI may be located on a small island, but that doesn't stop us from going global! With 9 per cent of our students from approximately 50 countries, UPEI celebrates diversity, inclusivity, and supports our international students with everything from learning English and study help to making new friends and adjusting to life on Prince Edward Island.

While UPEI provides opportunities for an international experience right in your own classroom, you can also do your own study-abroad programs, with access to formal exchanges with partner universities in countries such as China, Korea, France, Finland, Sweden, Mexico, Australia, and Japan, to name a few.

INTERNATIONAL STUDENT CONNECTIONS "BUDDY" PROGRAM

- » matches new students with returning students
- » provides a smooth transition for international students
- » helps students adapt to a new country and culture

AMBASSADOR FAMILY PROGRAM

- » connects international students with local families

ENGLISH ACADEMIC PREPARATION (EAP) PROGRAM

- » provides students who do not yet meet the minimum English proficiency requirement with an opportunity to begin their studies while developing language skills
- » successful completion allows admission to undergraduate programs without an English proficiency score (e.g., TOEFL, IELTS)

~ Supports for ~ international students

- Academic, personal, and financial
- off-campus housing
- overseas organizations
- study permits and immigration
- cultural adjustment
- health services
- chaplaincy services
- medical and dental insurance
- social activities

I REALLY APPRECIATE the size of my classes. The students know each other and it's easy to make friends. I especially like the international students' Buddy Program. Through it I met my Canadian best friend. I can't say enough about how she made my life here easier. I made other friends, too — in class, in residence, and even in the cafeteria!

It is also great that the professors at UPEI just happen to be incredible! I still drop by the offices of my ESL teachers. They welcome me with big smiles on their faces. I come say hi to them, to keep them updated, and to have a little chit-chat — they are like my family.

— TSUKASA NISHIBORI (3rd-year English) is an international student from Japan.

{ upei.ca }
{ /international }

Choosing UPEI to be MY university

WAS AN EASY DECISION.

I recommend it to everyone!

— DEANNA CARDINAL, 3rd-year Business Co-op

HOW DO I APPLY?

Application for undergraduate programs is available online using a credit card at upei.ca/apply. Or you can print the application form and send it by mail. Application processing fee is \$50. To review course options, refer to UPEI's Academic Calendar online at upei.ca/registrar.

Be sure to arrange for an official transcript to be sent directly from your high school, college, or university to the Registrar's Office.

Apply by March 1 to be considered automatically for Entrance Scholarships. Please be sure that your high school transcripts are in to the Registrar's Office by March 1, and that your application fee is paid in full. If March 1 falls on a weekend or statutory holiday, the deadline moves to the next business day.

HOW MUCH WILL IT COST?

FINANCIAL AID / SCHOLARSHIPS & AWARDS OFFICE

When it comes to UPEI's scholarships and awards, we make sure you have access to the best information about application procedures, criteria, and deadlines. UPEI is proud to celebrate student achievement through a comprehensive scholarship and awards program year-round. UPEI offers over \$3.5 million in scholarships and bursaries.

» All first-time-entry University applicants are automatically considered for UPEI Entrance Scholarships if your application to UPEI and high school transcripts are received at the Registrar's Office by March 1.

» Inspiring Excellence Awards — guaranteed Entrance Awards for students with a grade 12 average of 85% or higher based on courses used for admission and maintained throughout the completion of grade 12.

» We encourage you to apply for additional UPEI Scholarships and Bursaries ranging in value from \$1,500 to \$5,000 — many of which are renewable. For additional information and to apply, visit upei.ca/scholarships.

» Prince Edward Island high school graduates are eligible for provincial awards such as the \$2,000 George Coles Bursary in their first year and Island Student Award during second (\$400), third (\$600), and fourth years (\$600). Contact PEI Student Financial Services at (902) 368-4640 or the UPEI Financial Aid Advisor at (902) 628-4382.

TUITION AND FEES (CANADIAN STUDENTS), SEPTEMBER–APRIL

Tuition	\$4,710 <i>(based on 10 courses — 5 per term — in a regular undergraduate program. Tuition is \$471 per course.)</i>
Fees	\$524
Books	\$1,250 <i>(estimated at \$125 each)</i>
Health Plan	\$192 <i>(single)</i>
Dental Plan	\$128
TOTAL	\$6,804 <i>(two terms)</i>

RESIDENCE COSTS, SEPTEMBER–APRIL

Residence & Food	\$7,470 <i>(based on a double furnished room, including all utilities, and a 7-Day Unlimited Meal Plan)</i>
---------------------	---

Fees accurate at time of printing. For a more complete listing (Canadian and international), please visit upei.ca/fees.
